Route Options A and F are in line with the 6 primary objectives set out in the consultation document. Route A would be preferable as it connects Oughterard and Moycullen more directly to Galway and avoids running the greenway alongside the N59 at any point. Greenways are for all ages and abilities, if it is not safe enough for a 5 year old to cycle on then it is not a greenway therefore the Galway to Oughterard greenway should not share or run directly alongside a national route such as the N59. Please also ensure that Moycullen and Oughterard have proper access to the greenway preferably access points at both ends of each village. This is important for the local economies of these villages. Please consider

biodiversity and pollinator corridors when developing the greenway.

Please complete the questionnaire online or as above and return by email or post.
